MACDONALD REPEATS STORY TO GOVERNOR

'ROUND 'N' 'ROUND

Found in the attic—a 1905 woman's bathing suit.

And after one surveys the apparel, one doesn't wonder why women never learned how to swim in the early part of this century.

The suit fits high about the neck, the sleeves go clear to the wrists and the bloomers cover the knees. Black stockings and white shoes and a baggy bathing cap completed the costume.

And in those days, such a bathing suit was shockingly immodest.

One can imagine grandmother adjusting her specs, giving one horrified glance, and then breaking forth into a tirade about "this modern generation" and ending up with remarks about "when I was a girl" and "what is this world coming to?"

Just contrast those old suits with the bathing suits worn by Miss or Mrs. 1930.

The modern suit is of either one or two pieces, with contrasting colors.

It is cut low in front and too low in the back. There's a handy string arrangement so that the fair father may let the shoulder straps slip down and give the shoulders a sun burn.

(Speaking of sunburn, have you ever had it on the shoulders so that it made wearing a coat and vest and suspenders misery? If you haven't—take a tip—DON'T!)

Getting back to the modern bathing suit—there are no sleeves in the contraption.

The armholes are cut down past the waist and the lowers are so cut that an extra glance shows that they are being worn.

And the mother who wore the 1905 bathing suit today adjusts her specs and breaks into a tirade about this "younger generation" and ends up with a sigh of distress, wondering "what is this world coming to?"

Which all goes to show that life is long—and repetitions are many.

Death Calls Dr. R. T. Jones

News of the death of Dr. T. Rodney Jones, San Francisco dentist while on a deer hunting trip in Sonoma county, was received yesterday. Heart trouble was attributed as the cause of his death. Dr. Jones was well known throughout Contra Costa county, being the brother of the late attorney M. R. Jones of Martinez, Richmond and Oakland.

The heart attack was caused by over-exertion, according to word received. The party had left Santa Rosa early Friday morning by automobile, and the hot trip coupled with a long tramp through the woods weakened Jones' condition. He has been suffering from heart trouble the past two years. He was unmarried and is survived by a sister.

WITNESS IS CALM ON STAND

SACRAMENTO, Aug. 2.—UP—His confidence restored by the calm questioning of Lieut. Gov. H. L. Carnahan of California's advisory pardon board, John MacDonald, self-confessed perjurer, today repeated his story to Gov. Young and the pardon board that he lied to send Thomas J. Mooney and Warren K. Billings to prison.

The hearing, held in the curtain-chambers of the State Senate, was on the application of Mooney for pardon from Governor Young. Newspapersmen and attorneys sat at the desks usually occupied by members of the Legislature.

No longer the pitiful sobbing figure of the Supreme court inquiry at San Francisco this week, MacDonald with new-born self-assurance reiterated his story of how he came to be a witness in the trial that convicted Mooney and Billings of murder in connection with San Francisco's 1916 parade in which 10 persons lost their lives.

Tells Story

MacDonald doggedly reiterated his story that he identified pictures of the accused men only with "suggestions" from Police Captain Chas. Goff, and that he testified against them at the murder trials as he was "instructed" by District Attorney Charles M. Fickert.

Despite careful and insistent requests from his questioners, MacDonald stuck to these two points, upon which Mooney and his friends rely for a full executive pardon.

The possibility that MacDonald may have been partly intoxicated on the day of the parade was drawn from the witness by Carnahan.

Was Drinking

MacDonald said he had been drinking "regularly" both before and after that day, and that he may have taken a "few drinks" before he saw a man set down a suitcase near the scene of the explosion.

"Did you drink after you were in custody of the San Francisco police?" questioned Carnahan.

"Oh yes, the officer and I drank regularly together."

Drank Much

"Maybe five or six drinks a day." The witness told of seeing the man leave the suitcase, go down the street to a saloon at Stuart and Market, where he was joined by another man. The two stood on a step in front of the saloon, he said, and then disappeared in the crowd.

Pictures were then introduced showing that there were no steps in front of the saloon mentioned by MacDonald.

"Inasmuch as both Mooney and Billings were not tall enough to have stood out in the crowd unless they were standing on steps or something," pursued Carnahan, "apparently you did not see them or you saw someone else."

"Perhaps I was mistaken," replied MacDonald. "But I certainly saw two men standing there."

Louise Andrada In Divorce Plea

Monthly alimony of \$75 for herself and expectant child are being asked in a suit for divorce filed by Mrs. Louise Andrada of Richmond against her husband, Joseph Andrada, yesterday in Superior court.

In the suit, Mrs. Andrada states that she married Andrada May 7, in Reno and separated May 28 of this year. She states that she was 17 at the time of her marriage. Extreme cruelty is charged.

The plaintiff is being represented by T. M. Carlson.

POLICE TRY TO LINK AL CAPONE WITH SLAYING OF GANGSTER

CHICAGO, Aug. 2.—UP—The crimson records of Chicago gang battles were examined tonight to determine what connection "Scarface" Al Capone's unexpected return to his racketeering headquarters in Cicero had with the burst of machine gun-fire that disposed of the gang leader's most active enemy last night on the dance floor of a southern Wisconsin hotel resort.

The murder of the man identified as Jack Zuta followed so closely the "Capone murder pattern" in the confident technique of its execution that police were quick to identify it as "another Capone crime."

If the police theory is correct, then Capone's greatest threat has been removed from competition for supremacy in Chicago's liquor vice and gambling enterprises.

Two Slain

Zuta was business manager for the Aiello-Moran-Zuta clique of north side gangsters. He was credited with plotting the death of Alfred J. Lingie, Chicago Tribune reporter, as a gangland "show" to arouse public opinion against the unsympathetic political officials. He dodged death in June in busy State street when his gangster enemies sprang a carefully laid plot to kill him. Zuta ran away and a street car motorman was killed by a stray bullet.

Zuta appeared no more until (Continued on Page 8)

CANADA FETES BRITISH ZEP

MONTREAL, Aug. 2.—UP—Rain glistened on the broad sides of the dirigible R-100 at St. Hubert air-drome today as the official greeting of Canada was extended to the officers and crew of the ship that opened aerial connections with the motherland.

The ceremonies of welcome were held inside the hangar, the rain having kept down the crowd and forced a change in plans for an outdoor reception. Col. J. L. Ralston, minister of national defense, delivered the greeting in a speech expressing deep satisfaction of Canadians in welcoming the visitors. He praised the work of Commander R. S. Eooth and others including Major G. G. Scott, for their efforts in aviation development, which makes it possible to visualize Montreal as the terminus of a regular transoceanic passenger service.

American flags were hung beside the Union Jack in the hangar where Ralston and others spoke.

The big ship that opened aerial communication between Canada and the motherland will not go outside the Dominion for repairs to her damaged fin. It was definitely decided, as the dirigible's officers readjusted their Canadian schedule to meet the necessity for repairs at St. Hubert air-drome.

Work of repairing the fabric of the fin was completed tonight but it had not been determined what work would be necessary on the framework inside.

Rooker To Be Paid Honor At Luncheon

Officials of the Pacific Gas and Electric company are planning a luncheon for tomorrow noon to be held in the Palace hotel in honor of George N. Rooker, who is leaving for the mid-west this week to assume a post as president of a public utility corporation.

President

H. M. SCHRADER who heads the L. H. Schrader furniture company which opened its new furniture store at Twenty-fourth street and Macdonald avenue last night.

H. SCHRADER GIVES THANKS TO CITIZENS

H. M. Schrader, the president of the L. H. Schrader company in speaking of the opening last evening made the following statement:

"This is one of the happiest moments of my life and my happiness would be complete if my father, the founder of the institution were here to see this new store. I have but carried out one of his ideas, something that he talked of many times during his lifetime."

"He had watched the growth of the city and often said to me, in the future some time, we will have a store in the Twenty-third street section." The opening tonight is the consummation of his vision.

"It is also a pleasure to see that the public appreciates the efforts we have put forth to give them a store that is equal to any that you will find in cities four times as large as Richmond. The latest styles in furniture will always be carried and our one great aim is to serve our thousands of patrons, and have them satisfied."

"We want them to feel that the L. H. Schrader store is their home and resting place when they are down town. Every convenience has been installed. The city is on the eve of a great development."

"And we can assure the public that we will keep pace."

"While it is impossible to thank each one of the thousands who attended our opening tonight, I take this means of extending my sincere thanks to you."

THOUSANDS VISIT AT STORE

By ELH

Schrader's new furniture store at the corner of Twenty-fourth street and Macdonald avenue was opened last night.

Thousands gathered in the store building—filling it almost completely.

No accurate estimate could be made of the number of persons who attended the opening.

Many Present

However, it is believed that the crowd numbered at the least 2000 persons.

Starting at six o'clock the crowds gathered and entered the store, and from that hour up to 12 o'clock last night the crowd was still arriving.

Hundreds of persons personally congratulated H. M. Schrader, president of the company upon the opening of his new store. Hundreds of messages of congratulations and floral wreaths were also received.

Radio Stars

During the evening entertainment was presented by radio stars. Station KROW broadcasted from the main floor of the building. A "mike" was placed in the center of the floor and a grand piano was placed near it.

Thousands, crowded about to see and hear their favorite artists of station KROW and KFWL. The (Continued on Page 5)

GIRL INJURED IN CAR CRASH

Gladys Kitchen, 12 year old daughter of Mr. and Mrs. George Kitchen of Geyersville is recovering at the Hospital Richmond from injuries received when she was struck by an automobile driven by Robert F. Drennen, 2229 Barrett avenue, yesterday afternoon.

The young girl, according to police report, attempted to run across the street at Barrett avenue and Twenty-second street, directly in front of Drennen's machine. Drennen said she ran from in back of a parked car and it was impossible to see her.

Drennen reported to the police department and has been released on his own recognizance.

According to hospital reports, Gladys is suffering from severe body abrasions with possible fracture of the skull and possible internal injuries.

The young girl, with her sister, Mildred has been spending her vacation in Richmond with her grandmother, Mrs. Owen Clancy, 524 Twenty-second street.

Legion In Plans For Drill Meet

In preparation for participation in the State American Legion convention at Sacramento Aug. 18, the drill team of the Richmond Post has been practicing in the Memorial hall every Friday night, and is expected to carry off some of the prizes to be awarded.

At the meeting Friday night it was announced that all members without uniforms should see Everett Cohen, who will make arrangements.

George Tandy is in charge of the drill team.

MARRIAGE LICENSE

Carl H. Gehhardt, Jr., 24, of 2010 Chanslor avenue, and Frances A. Regalia, 19, of 217 Cypress street, applied for a marriage license in Martinez yesterday.

In The Spotlight

Richmond today is in the very center of the industrial spotlight of the Pacific coast.

During the next five years this young City of 20,000 promises to equal, if not exceed, the growth of such cities as Tulsa, Miami, and Long Beach.

And the growth which Richmond will show will be of an enduring character.

Tulsa and Long Beach owe their advancement primarily to the discovery of oil and its by-products in large and paying quantities.

Geologists will tell you and history proves that oil is not an inexhaustible commodity in Nature's store house, and therefore, cities whose growth and wealth are based therein must be alert lest a slump come to them when their source of supply lessens.

COMPARED TO OTHER CITIES

Miami, on the Florida Coast, boomed her climate, and made it pay till, unhappily, the storms that roar in from the tropics began to take toll and lay waste her beauty spots.

Reference to these cities is not made in disparagement of them, but for the purpose of comparing them to Richmond's future.

Here already are substantial industries, factories that make products that go to all quarters of the globe. Trunk lines of railroads that fetch and carry the world's commerce to and through the city's doors.

CITY'S PECULIAR ADVANTAGES

A deep water harbor. A fine, ideal climate for factory workers. Freedom from climatic and geological cataclysms. Practical immunity to social and industrial disorders. A guaranteed water supply of highest excellence.

Nearness to colleges and universities that rank with the best schools of the world.

RICHMOND COMING ON 'GE

And Richmond sits here, less than thirty years old, a sort of industrial flapper, conscious of her attractions, but both timid and wary, due to youth. Not wishing to be scolded for forwardness by her big sister by the Golden Gate, nor chided for boldness in aspiring high by "My City Oakland," Richmond has too long permitted her exceptional advantages to go unsung, unheralded.

But you may "put this in your pipe and smoke it:" San Francisco would have given a good wisdom tooth to have retained the Ford plant.

An Oakland would doff her robes of dignity, put on a skirt of grass and do a hula hula dance to link Ford's plant to her fast-growing industrial chain.

However, San Francisco and Oakland know that that which brings bigness to Richmond will enhance their bank clearings and add to the sure prestige of the San Francisco Bay Metropolitan District.

OAKLAND MAKES COMMENT

The Oakland Tribune, in a recent issue, commenting editorially "On Richmond's Harbor" had the following to say:

"Within the next ten months a great automotive plant, to cost \$3,500,000 will have taken shape on the industrial lands near Richmond's splendid harbor. Word that work is to start immediately upon the Ford plant which is to employ 2400 men is received with joy by the whole Eastbay. It means the further establishment of this section as the center of automobile manufacturing and assembling on the Pacific coast, and larger industrial importance to Richmond and the Bay area."

"The contracts are signed; arrangements are complete for spur track facilities, and the word is given for the work to start. The great plant on the inner harbor of Richmond, it is expected, will be done within a year. It will be so designed that it may be expanded at any time and will be a model in construction and architecture."

Andrew Rites Here Tomorrow

Funeral services will be conducted tomorrow by Richmond lodge of Elks for Thomas A. Andrews of El Cerrito at the Ryan Funeral home at 2:30 o'clock. The remains will be laid to rest in Sunset mausoleum.

Death claimed Andrews following injuries received at his auto camp six months ago.

TO RETURN

Mr. and Mrs. George Keiser are expected to return to their home on Ninth street tomorrow after a vacation spent in the Russian river, and in northern California. Several days were also spent in San Jose, wrecked.

Around World Plane Crashes

HARBOR GRACE, N. F., Aug. 2.—UP—The City of New York plane in which John Henry Mears and Henry J. Brown, contemplated a record-breaking round the world flight crashed here today.

The plane had just taken off from here on the second lap of its globe circling flight when it crashed at the edge of the airport.

Neither Mears nor Brown were injured, although the plans was x

OFFICIAL OF COMPANY TO ARRIVE

Robert Winkler, of the Ford motor company will arrive here tomorrow morning to supervise the construction of the new \$3,500,000 Ford plant on the Richmond inner harbor.

Lines for the new plant are being laid by a crew of surveyors. This work was started yesterday and should be finished within a few days.

Three pile drivers are to be built here for the driving of piles for the foundation of the plant.

Office Finished

The office building of the Clinton Construction company, general contractors is nearly completed. These are just a few of the new developments in the building of the Ford plant here.

William Bremmer, of the Ford architects arrived here yesterday at the Hotel Carquinez and announced that Winkler will arrive Monday. According to Bremmer, Winkler supervised the construction of the Ford factory at Long Beach.

To Inspect Work

Winkler will devote his time between the local plant and the Long Beach factory. He will make the trips by air.

The Clinton Construction company has announced that the laying of the foundation for the new plant will be started within the next few days. This means that an additional crew of men will be employed, it was said.

Piles are to be driven on or about Aug. 15. Two pile drivers are to be brought here. Three others will be constructed on the grounds here.

The concrete piles which will be driven are to be manufactured here by the company.

The sand, gravel and other material to be used in this process will be stored in bunkers which will be erected at the site.

A large crew of surveyors is now at work laying out the lines for the plant, Bremmer announced.

The joint spur track serving the plant is practically completed. Ballasting has been done. The tracks are laid on a cushion of planks.

T. A. Peterson, general construction superintendent of the Clinton company is supervising the work here.

ENGINE ENDS TIME FLIGHT

ROOSEVELT FIELD, L. I., Aug. 2.—UP The attempt of Robert Blanc and Louis Reichers to set a new endurance flight record ended tonight after almost 13 days' progress when their plane was forced down on a golf course near here.

The landing was safe and the ship was sound. The pair hitherto having easy sailing, were about 1,000 feet aloft when their motor slowed and finally stopped.

"Who said the 13th day wasn't lucky?" asked Reichers as he alighted.

Standard Oil Co. Has 3 New Planes

ALAMEDA, Aug. 2.—The Standard Oil company of California, announced today that with the arrival of three new planes from Wichita, Kan., it will transfer its airplane base from Mills Field, San Francisco to the San Francisco airport here. The company now has five planes.

ODD FELLOWS NINE TO PLAY OAKLANDERS

The Richmond Odd Fellows will receive today's baseball opposition from the St. Francis club of Oakland. The game will start at 2:30 o'clock on the San Pablo diamond this afternoon.

The local lodgesmen were originally scheduled to meet the Vacaville nine today, but the game with the Oakland team was started up when it was learned that three of the Vacaville athletes had been injured in an automobile accident last Sunday.

Johnny Babich, a clever young high school chucker, will perform on the mound for the linkers this afternoon. John Rosano will be behind the platter for the Richmond aggregation.

The Odd Fellows have been playing nice baseball this year, and should be able to take down the Oaklanders today.

The locals are chafing over last Sunday's defeat at the hands of the Corey Garagemen, and are determined to come back as strong as ever in today's battle.

Corey Nine To Meet Y. M. I. At Pleasanton

The Corey nine will journey to Pleasanton to meet the Pleasanton Y. M. I. outfit at Pleasanton this afternoon at 2:30 o'clock.

Eghlight, Les Matthew's new find is scheduled to operate on the mound for the locals today, with Baldwin, another find, behind the plate.

The Martinez Chryslers will afford opposition to the Corey aggregation next Sunday at Martinez.

The Corey lineup has received many additions during the last two weeks, and, judging by their showing against the Odd Fellows last week-end, these changes are for the best. The Coreys have been going strong this summer, and are expected to give the Pleasanton boys a fast workout this afternoon.

George W. Cushing Faces \$2887 Suit

George W. Cushing, local contractor and the Assurity Continental Casualty company, were yesterday made the defendants in a suit for \$2887, by the Atlas Rock company. The suit was filed in Martinez and alleged the money was due for sand and gravel furnished for a street improvement job in Antioch.

Senator H. C. Nelson Is Reported Better

SANTA ROSA, Aug. 2.—State Senator H. C. Nelson of Eureka, who was here today on his way home from a southern trip, has been able to discard his crutches, which he had to requisition about three months ago when he fell and fractured his leg.

Richmond Elks Nine Will Meet Alameda Bills

The Richmond Elks will engage in their second game of the 1930 Elks baseball season when they tangle with the Alameda Elks this afternoon at 2:30 o'clock.

The local antlers were unsuccessful in their first game of the league last Sunday, going down before the strong San Francisco squad. However, they are reported to be a bit better organized today, and should give the Island City boys a maximum quantity of trouble this afternoon.

George Shaw, manager of the local team, will have a large choice of pitchers for today's game. He may choose from a staff consisting of "Jiggs" Wright, Dutch Kogler, Peacock, Bliss, and "Lerry" Erendel.

Ford Team To Meet Bakers

The Moitoza Fords will go into action against the Golden Cross Baking Company nine this afternoon on the Bay View park diamond at 6th and Webster streets.

The contest is scheduled to begin at 2:30 o'clock.

Two victories and one reverse is the record of the Moitoza Fords for this season. They were newly reorganized about three weeks ago, and have been making a snappy showing on eastbay diamonds since that time.

Martin, one of their chief assets, will chuck for the Fords. Anthony Moitoza will be on the receiving end of the local battery.

Youth Makes Long Journey

ST. LOUIS.—A single word of English, "good-bye" sufficed 10-year old George Minin on his lone 10,000 mile trip from China to St. Louis.

During the long days on board ship George made friends with Russian-speaking passengers who turned him over to the train conductor in San Francisco when the lad began his overland trip. Passed from one conductor to another, George's thanks to his departing guardian and his greeting to his new custodian were the same, "good-bye."

A Way To Stop Attacks Of Fits

Reports are received of an amazing treatment that epileptics state has proved successful in stopping their attacks. R. Leaso, Apt. 64, Island Ave., Milwaukee, Wis., has been supplying sufferers with this treatment. He now wishes to reach all those who have not been helped and to do so is making the startling offer of a generous treatment free to all sufferers. Local Party Has Luck On Deer Hunt

Fine luck was enjoyed by a party of local deer hunters, headed by E. B. Lowery, who returned yesterday morning from a hunting expedition in the hills of Yolo county.

Seven deer were bagged by the four local men and two other members of the party who owned the land which the deer were killed.

The hunters gained their prizes by 10:30 o'clock Friday morning. The men left Richmond Thursday afternoon. They returned yesterday morning at two o'clock. The deer were killed about 35 miles west of Winters.

The local hunters were E. B. Lowery, his son Laurel Ed. Ridley and Lloyd Rice.

Elias Calles Wed Yesterday In Old Mexico

MEXICO CITY, Aug. 2.—UP—Former President Elias Calles, veteran military leader of Mexico, and Senorita Leonor Llorente were married today at Santa Barbara ranch.

The marriage ceremony was civil. No religious ceremony was involved. The bride and groom and the members of the wedding party were dressed informally and a judge officiated. A luncheon was served after the ceremony.

The witnesses included Secretary of Interior Riva Palacio, Alfredo Calles, son of the former president; Mrs. Ernestina Robinson, daughter of Calles, and Thomas Robinson, her husband, a citizen of the United States. Less than a dozen persons witnessed the ceremony.

The marriage was witnessed only by relatives and a few close friends of the revolutionary leader and his 25-year-old bride. The closest secrecy was maintained by the couple up to the time of the ceremony, although it had been made known indirectly last night the marriage would occur at Calles' ranch near the capital some time today.

The bride, an attractive amateur musician, has won praise for her talent in several concerts. She is athletic and likes to ride and swim. She speaks English with ease.

It was Calles' second marriage.

BOAT MEET TO BE HELD ON AUG. 17

The second outboard regatta to be held on the Richmond inner harbor will take place August 17 under the auspices of the Richmond Boating association.

Approximately 35 boats are expected to compete in this important sporting event.

There will be two races, beginning at 10 o'clock and concluding at 3:30 o'clock. Each race will be 50 miles long, and will be divided into two heats of 25 miles each, thereby really making four events. More than 40 two and one half mile laps will be run off during the regatta.

Cash and merchandise prizes will be presented to the winners of the two events. The regatta will be held under the general supervision of Tony Alameda, commodore of the Northern California Outboard Motor association. The meet has been approved by that organization.

The first local regatta was held two weeks ago, and, although many races could not be run off (cause of high winds, it gave a fine start to outboard activities in Richmond. More enthusiasm has been shown by both local and visiting sportsmen over the opportunities offered by the Richmond inner harbor for boating, and this sport is certain to obtain a firm foothold in this city.

Springfield Wins Annual Regatta

BOSTON, Aug. 2.—UP—The Springfield Rowing association of Springfield, Mass., won the senior eight-oared shells race of the 58th annual regatta of the National association of amateur oarsmen on the Charles river here today. Springfield's time was six minutes, 34.1-5 seconds.

Other contestants finished in this order: New York A. C., Southside Boat Club of Quincy, Ill.; Union Boat Club, of Boston; Penn Athletic Club; Undine Barge Club, of Philadelphia, and the Century Boat Club of St. Louis.

Society NOTES

EVELYN NEELEY W. C. ROBERTS ARE WED HERE

At a quiet wedding witnessed only by attendants and members of the immediate family, Miss Evelyn Neeley, daughter of Mr. and Mrs. William Neeley of 617 Twenty-second street, became the bride of William Carlton Roberts, at the hour of four o'clock yesterday afternoon.

Rev. E. K. Dille, of the Methodist church of Piedmont, who joined both the bride's parents and grandparents, Mr. and Mrs. E. A. Hoadley of San Francisco, in marriage, was the officiating pastor.

Miss Mildred Wolett, a college chum of the bride, from the University of California, attended as maid of honor.

William Thomas of Ripon, served as best man for Roberts. Miss Elberta Roberts, sister of the groom, played the wedding march and incidental music.

The bride wore a charming gown of pink satin and carried a bouquet of pink rose buds. The maid of honor was attired in yellow satin.

Miss Neeley is to continue her education at the University of California, where she is a senior student. She entered the university from the Richmond union high school and was active in Job's Daughters having served as honored queen. Her parents are well known here.

Roberts, the son of Mr. and Mrs. W. C. Roberts, of San Francisco, is employed at the Standard Oil company. He was a student in engineering at the University of California.

After a short honeymoon in the south, the young couple will make their home in Berkeley.

M. H. Salisburys Return From Trip

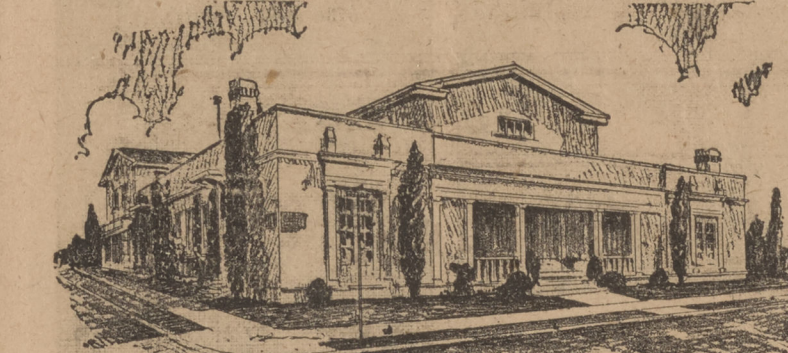

Concluding a pleasant vacation tour, Mr. and Mrs. M. H. Salisbury with their two daughters, Marjorie and Patsy Dale have returned to their home on South Seventh street. After a jaunt to Donner Lake, Lake Tahoe and Truckee a several day's visit was made at the home of Mrs. Salisbury's parents in Porterville.

PAINFUL CORNS

Loosen—Lift Out

A little known Japanese herb, the discovery of an eminent German scientist (Dr. Stickle) instantly soothes the corn, callus or wart, then loosens it so that shortly you can lift it right out. This new discovery called "Corn Fly" excites the white blood corpuscles to action and granulates the corn at its root so that it drops out and leaves no trace of scar or soreness.
You will also find "Corn Fly Foot Bath Powder" a boon for sore, tired or perspiring feet.
"Corn Fly" for corns, 35c; "Corn Fly Foot Bath Powder," 25c; and "Corn Fly Bunion Remedy," 50c (all three—\$1.10 value—for \$1.00), are sold under a positive money-back guarantee by H-Gene Co., Newark N. J., or local druggist.

superintendent, Mrs. W. H. Page, or-
ganist, Mrs. C. L. Baldwin, or-
ganist.

Bible school meets at 9:45 for a
happy hour of song and study. The
lesson for tomorrow will be the
beautiful story of Ruth and Naomi.
Last Sunday's attendance was en-
couraging but we can do still bet-
ter if we try.

At the 11 o'clock service, Rev.
Hudson has something very inter-
esting to say about "A Growing
Church." This subject should be of
vital importance to all who would
like to see our church in this
class.

The anthem "O For a Thousand
Tongues," by C. M. Lyngman, will
be rendered by the choir. The choir
is anticipating a fine turnout to-
morrow as a number of our young
people will be out to practice and
promised to be on hand to help in
the morning service.

The Luther League holds its de-
votional service at 6:30 p. m. Miss
Signe Johnson, leader. Topic:
"Chances to Serve Christ in Sun-
day School." This department of
the church is taking on new life and
interest and prospects are bright
for a happy and helpful year. Pres-
ident Carl Johnson has been help-
ing the pastor in this work and
in next Friday evening the League
will be guests of Rev. and Mrs.
Hudson at the parsonage, for a
real old-time social evening.

Choir practice as usual on Thurs-
day evening at 7:30.
We desire at all times that our
church shall radiate a warm and
friendly spirit and welcome all
strangers to come and worship
with us.

GAY NINETIES IN FILM AT FOX

When Marion Davies' new starring vehicle "The Florodora Girl" opens today at the Fox-California theater, the modern generation will be given an opportunity to see how their parents and grandparents dressed and acted in the days when the 21-story Flatiron building was considered a skyscraper of awesome proportion.

The picture filmed from an original story of Gene Markey depicts the romance of one of the famous "Florodora Sextette" and revives such ghosts of the picturesque past as the bustle, the muffs, the plumed hat, the petticoat, the side-walk-sweeping train, red flannels and the voluminous costumes fastened at the rear by hooks and eyes.

In connection with the latter report has it that in preparation for the initial scenes, Harry Beaumont, the director, made a final inspection of props and costumes to make certain that there would be no discrepancy as regards accurate atmospheric details. The costumes, for the "sextette" were examined and approved and the set was all ready for shooting. But the six modern maidens, Miss Davies, Ika Chase, Vivian Oakland, Lenore Bushman, Patricia Caron and Ethel Sykes, discovered that they didn't know a thing about hooks and eyes and wardrobe assistants were rushed to the set. Also Our Gang comedy. Bear Shooters and Fox Movie-tone News.

Men Without Women Story Of Submarine

Submarines have played a prominent part in many silent pictures but the honor of adding complete dialog and sound of undersea films goes to "Men Without Women" which is the feature attraction booked for Tuesday and Wednesday at the Fox-California theater.

As the title indicates there are no women in the cast of this unusual production, which is also said to be the first picture that authentically shows the interior of a submarine.

Kenneth Mackenna and Frank Al bertson head the all-masculine cast, with such well known players as Paul Page, Farrell Macdonald, Warren Hymer, Stuart Erwin, George LeGuere, Walter McGrail, and Roy Stewart. John Ford directed this Fox Movietone picture. Also Talking comedy "Oh Darling."

1000 Doctors To Make Study Of Cancer Cure

BALTIMORE, Aug. 2.—Johns Hopkins University today announced plans to assemble 1000 physicians in the largest post-graduate cancer class ever held, Sept. 15, 16 and 17, designed to meet new conditions in cancer prevention caused by a marked increase in the numbers of persons seeking medical advice.

Dr. Joseph Bloodgood announced that the entire ballroom of a Baltimore hotel has been engaged as a class room, because of the lack of any other room of sufficient size to accommodate the gathering.

Although invitations are being sent to about 10,000 physicians only about 1000 are expected to attend the course.

MARY NOLAN IS BACK ON LOT

HOLLYWOOD, Aug. 2.—Mary Nolan, screen star, was at her studio today and obtained the script for her next picture, "Ex-Mistress" in which she will have the starring role.

Miss Nolan still was suffering from a sunburned back acquired a few days ago when she fell asleep on a boat while on a swimming party. She left a hospital last night after treatment taken in order that her picture might not be delayed.

The actress indicated that she did not intend to press action against what she declared were false accusations that she was addicted to the use of narcotics. She denied the affidavits of two nurses who recently attended her and said she felt the affair was an effort to blacken her reputation and hinder her screen career.

Executives at Miss Nolan's studio and a federal agent who made an investigation said they believed that Miss Nolan was not a user of narcotics.

Meanwhile, United States attorney Sam McNabb said he will launch an investigation into the truth of the two affidavits, one of which resulted in the issuance of federal warrants under which the actress' home, her automobile and studio dressing room would have been searched.

Miss Nolan's personal physician joined in the declaration that the film star was not a drug user, saying that she had been ill several times in the last year or so and that her screen work had handicapped her return to perfect health.

THOUSANDS AT OPEN OF NEW STORE HERE

(Continued From Page 1)
latter station, which shares time on the air with the local broadcasters, sent all of its artists to Richmond to participate in the affair.

After midnight last night an informal program was scheduled to be presented by the radio artists.

Program Given

One of the features of the celebration was the fact that radios placed in various corners of the store were tuned in on KROW and the voices of the artists were reproduced in such a manner that they could be heard in all parts of the store.

This, perhaps, was the first time that a number of Richmond persons were given an opportunity to see their favorite performers in person.

Hinkley Talks

Mayor A. B. Hinkley was one of the speakers who was broadcast over KROW. Dr. Hinkley reviewed the progress of the city of Richmond, declaring that the location of the Ford plant here will take this city into the front rank of California's industrial communities. In concluding his address, Dr. Hinkley said:

"In my discourse tonight I am not forgetful of the part the L. H. Schrader Furniture company has played in pioneering and developing the mercantile business along with the rapid growth of Richmond. Their first location was at First and Macdonald avenue in 1904. Then a few years later to Third and Macdonald. Then in 1911 to Seventh and Macdonald and now tonight we are here dedicating a fine new building which is to house the Schrader Furniture company at Twenty-third and Macdonald. For how long I do not know, but I do know that we all congratulate them and wish them well in their new location.

Other speakers were on the program.

Prizes Awarded

Awarding of prizes was one of the main attractions of the evening. At ten o'clock 25 prizes totaling in value more than \$1000 were awarded.

When Schrader's opened last night, they presented to the city of Richmond one of the finest furniture stores in the bay regions.

Modern in every detail the store is of the early California mission style.

Well Built

It was so constructed that when the need arises a second story may be added to the building.

There is 15,000 square feet of floor space in the new building—and every inch of it was occupied last night—so it seemed.

Boston Frog Pond

YOUNGSTERS ENJOYING the Boston Frog Pond on one of these hot days in the East when the thermometer hovers around the 100 and up mark.

A feature of the new building is the built-in radio studio of station KROW. This station is planning to broadcast from its local studios frequently.

Telephone lines hook it up with the powerful station which is located in East Shore park.

Prizes were awarded to Mrs. G. A. Renkert, 828 Chanslor avenue; Mrs. W. Crist, 621 Twenty-first street; John Polli, 613 Twentieth street; C. E. Parker, 2139 Sanford avenue; Mrs. Violet Green, 2027 Gaynor; L. Winkler, 5318 Clinton avenue; T. J. U. S. BAN ON RUSS PULP LIFTED

WASHINGTON, Aug. 2.—UP—The treasury has revoked its order barring Russian Soviet produced pulpwood from this country, under the new tariff law forbidding importation of goods produced or carried by convict labor.

Evidence held previously by Assistant Treasury Secretary Lowman strong enough to bar the pulpwood and hold up several shiploads at various ports, was said in an official treasury announcement to be "conflicting and inconclusive" and "not sufficient" to establish the fact of convict production.

The decision was announced a few hours after American papermill and steamship operators joined with representatives of the official Soviet trade agency in this country, Amtorg, in asking lifting of the embargo. Amtorg corporation denied convict labor was used. Pulpwood is an essential ingredient in paper-making, especially newspaper, and most of the American demand is now supplied by Canada at fixed prices.

Mills Closed

Mill men testified before Lowman at the hearing today that many American mills would be closed if the pulpwood from Russia is excluded.

The treasury statement, signed by Lowman, follows:
"Some days ago the treasury was advised that several vessels loaded with pulpwood had arrived in this country from Archangel. Section 307 of the tariff act of 1930 prohibits the importation of goods, wares, articles produced wholly or in part in any foreign country by convict labor, and in view of the fact that certain information had been given indicating that the pulpwood may have been produced by convict labor in a foreign country the cargoes have been denied entry pending a determination as to whether the pulpwood has been so produced."

Hearings Held

"Hearings were held but the evidence adduced was conflicting and inconclusive, and has not been found to be sufficient to establish the fact that the pulpwood was produced by convict labor. Accordingly, the treasury department has issued instructions to the collectors of customs that the detained shipments may be permitted entry."

"It may be stated in this connection that the treasury department intends to enforce strictly the provision of article 307 of the tariff act of 1930 prohibiting entry of any goods, wares, articles or merchandise mined, produced, or manufactured wholly or in part in any foreign country by convict labor."

It was said authoritatively that the earlier information of Lowman on which he based his embargo pertained to regions of Russia other than Archangel, where the pulpwood barrel originated. Lowman made it clear later that the revocation applies to future shipments as well as the detained shipments, in the absence of any new evidence justifying an embargo.

STAY GIVEN THREE SLAYERS

CANON CITY, Colo., Aug. 2.—UP—Three condemned killers today were removed temporarily from the shadow of the gallows through the devotion of a childhood sweetheart of one of them.

Warden Francis E. Crawford of the Colorado state penitentiary was served with a supreme court order staying the execution of John Walker, Claude Ray and Andrew Halliday while their appeal from the death sentence is being heard.

The three were to have been hanged during the week starting at midnight tonight for the murder of Coral Hickman, a deputy sheriff at Eads, Colo., as they fled from the scene of a bank robbery at Manchester, Kas., last March.

Penniless and apparently without friends to aid them, the three had given up hope of carrying their case to the supreme court and were reconciled to the fate that awaited them.

Customs Guards To Go Unarmed

MEXICO CITY, Aug. 2.—Contending that tourists get an unpleasant feeling when armed men go through their baggage, Mexican custom agents along the American border have been ordered to leave off their pistols. The customs department has also ordered the discharge of agents who are not polite to tourists.

Sued Wife Sues 'Other Woman'

KANSAS CITY, Aug. 2.—Mrs. Hans Jensen, who is the defendant of a divorce suit filed in Nevada by Dr. Hans Jensen, today filed suit against Miss Hazel Kern, asking \$50,000 for alleged alienation of her husband's affections.

In the petition Mrs. Jensen alleges that Miss Kern "deliberately and maliciously" planned to cause Dr. Jensen to file suit for divorce against his wife and that later he intended to marry her.

VIVIAN, NILS AT RENO CITY

RENO, Nev., Aug. 2.—UP—Safe from the villain's bloodhounds at last, Little Eva was in the high Sierras tonight in the arms of the handsome prince.

Such, despite their denials, seemed today to be the sequel to the mysterious visit of two young persons from Hollywood and their short stay in the chambers of Judge Thomas Moran.

Principals in the combination "Uncle Tom's Cabin" revival and Hans Anderson fairy tale:

"Eva" Vivian Duncan of the noted Duncan sisters.

The prince, Nils Asther, tall and handsome Swedish film luminary. The villain (not actually present) Rex Lease, film actor, whose "relentless pursuit of Little Eva culminated in a black eye for Vivian and a \$50 fine for Lease.

"Topsy" Vivian's Rosetta, was maid of honor. Rosetta it was at the time when Asther was reputedly offering to punch "Legree" Lease's head, who said "she'd have peace if she had to fight for it."

The usual things

IT IS DIFFICULT to imagine the world today without some of the things that make our living in it so pleasant and comfortable. How naturally we lift the telephone receiver, step into an automobile, and look for the news of the world in the newspaper — every day of our lives.

Another of these usual, invaluable things, accepted as part of the routine of existence, is the guidance given by the advertisements in this newspaper in supplying our wants from day to day. We read them. They help us to save time and money. And our lives go on — more easily and more fully.

Every day the advertisements suggest ways in which we can get things we want with the greatest possible satisfaction to ourselves. They tell us of new conveniences and comforts of which we would not otherwise have known. They help us to get down-to-the-dollar satisfaction. They assure us of proved values.

Woman Hurt In Machine Crash

Florence McCarty of Port Costa is today recovering from severe lacerations on the face and head as the result of an automobile accident at Eleventh street and Cutting boulevard Friday night.

According to police reports cars driven by Frank Coleman of Port Costa and Antone Rose of Richmond collided, and a third car, which is reported to have figured in the accident continued on its way before anyone could take its license number.

Coleman's car was overturned in the collision.

W. C. T. U. Asks If Queen Of England Smokes

ROCKFORD, Ill., Aug. 2.—UP—The social morality department of the Rockford W. C. T. U. "doesn't believe all it hears," but wants to know for sure whether her royal highness, Queen Mary of England, really smoked an occasional cigarette.

"In a spirit of clean sportsmanship," Mrs. Myrtle Welfram, crusading president of the Rockford chapter has cabled the queen:

"Have challenged statement that you smoke cigarettes. Please answer."

So far tonight the queen had not replied.

"Before we take any stand," Mrs. Welfram told the United Press, "the social morality department goes right to headquarters to ascertain the actual facts."

YES! THE QUEEN DOES INDULGE

LONDON, Aug. 2.—UP—The Sunday Express will publish on its front page tomorrow an answer to doubts of "the social morality department of the Rockford (Ill.) W. C. T. U." concerning reports Queen Mary occasionally smokes an after dinner cigarette.

In reply to the cabled message of the Rockford W. C. T. U. challenging the reports, the Sunday Express headline will say:

"Yes! The queen does smoke!"

"The answer to the social morality department of the W. C. T. U. of Rockford Ill., U. S. A., is: 'Yes, the queen does enjoy an occasional cigarette,'" the Express will say. The story then enumerates other members of royalty who smoke, including the Duchess of York, "who is known to smoke privately." It also will say that "when Princess Mary was married presents from her friends included a number of cigarette cases."

Dolores Del Rio To Use Accent In Next Film

HOLLYWOOD (UP)—Dolores Del Rio intends to speak with a Mexican accent in her next talking picture.

Or, rather, she intends to speak with a Mexican accent even more pronounced than her ordinary English conversation carries.

The reason for attempting to sound more Mexican than usual is her part, the lead, of course, in "The Dove," which will have a different name when it goes before the talking picture public.

"I'm going to use a very marked Mexican accent," Dolores says. "Even more so than in my ordinary talk or in my other pictures."

And the manner of her saying and pronouncing "other" which is not very distant from the Spanish "Otras" gives the distinct opinion that it won't take any concerted effort on Miss Del Rio's part to achieve her goal.

Miss Del Rio is really very enthusiastic over her part in "The Dove," and is certain it will offer her a better chance than she had in "The Bad One" or any of her "Otras" pictures.

Every Baby Has a Birthright of Love

EVERY woman who ever has loved a baby must have been reading, with painfully sympathetic interest, about those poor little mixed-up infants in Chicago. What happened, you will remember, was that both Mrs. Watkins and Bamberger became the mothers of baby sons on the same day and in the same room, at the Englewood Hospital. They left the hospital on the same day, too. Three days later, proud Papa Watkins, watching his baby have its bath, saw on the back of the child's neck a piece of tape marked "Bamberger" in red ink. Rushing frantically, with the infant, to the Bamberger home, he found that Papa Bamberger—and especially Mamma Bamberger—believed they had their own child. Yet, in the Bamberger wastebasket, lay a tell-tale bit of tape labeled "Watkins". Ever since, everybody in this hospital, in scientific circles, in both families, has been terribly fussed.

Blood tests, head tests, every other sort of test were applied. The coloring of the parents—there's a blonde and a brunette in each family—was studied. And the scientific verdict was that the babies really were mixed up—just like the two for which little Buttercup was responsible in "Pinafore." The Health Commissioner had made the parents promise that they would accept as final the scientific decision—

Yet, when it was announced, Papa Bamberger wouldn't believe it. And he tied with the baby which Papa Watkins thought belonged to himself. Later, all four parents met their family doctors. And decided they'd forget the scientists and keep the babies they have—

The babies whom the mothers have been feeding, bathing, cuddling. And of whom, one may imagine, these mothers have become truly fond. Then, the agreement was deigned, and many things can happen, before you read this column. But, whatever the ultimate outcome, we must express a hope with which we believe every truly motherly woman will agree—A hope that neither baby will suffer for lack of love and of the comforting faith that he BELONGS TO LOVE! We don't mean to undervalue the claims of blood relationship. And we may be prejudiced in favor of a ready-made family. Since that's the kind we've helped to bring up—

But it does seem to us that what matters most, about any little child, is ITSELF. Not whether it belongs to your family tree or to another. If it be healthy, winning, helpless—If it be in need of a woman's cherishing care and love—Isn't that the important thing, the overmastering appeal?

Isn't it just a bit egotistical to assume that only the child of your body is worthy of your attention and affection? Are you, yourself, so wonderful as all that? Why can't an adopted baby be loved as tenderly as a baby born to you? The answer is that the generous, broad-minded woman can and does love one as much as the other—We've seen born children and adopted children in the same family. And not a shred of difference in the treatment of them, the devotion to them, the ambitious plans for their future. Surely that's how it should be, among humane persons. If only more men and women would accept this principle. There wouldn't be any cruel step-parents—(There are plenty, even now, whom no Cinderella finds mystical). And there would be more orphan babies. Who could grow up to normal life and love. With homes and parents as much their "own" as any child's!

A DISH A DAY

Copyright Press Publishing Company (New York World) 1930
Early in the season when new beets, green peas, corn and other vegetables first come into the market, they are a welcome sight on our tables. Little skill in cooking and no decorative sense whatever is needed to make them tempting.

Later in the summer all this is changed, sadly changed. Our taste is faded, our appetites languid, and we want cold food mostly, and very little of that. Then is the time, or to be exact, now is the time, when the cook must use ingenuity in making the foods on her table so attractive that we eat our daily quota of vegetables without any urging. One of the most decorative and tempting of summer vegetables is beets, but if they take repeated encores served in the same way we grow tired of them. If spiced beets, and pickled beets, and buttered beets have all appeared on your menus, try these attractive beet cups for a change.

HEAT WAVE

We followed the car ahead With eyes that wavered not. It would never do to be lost— (Gee whiz, but the day was hot!) We stopped at a bend in the road And he kissed me quick and sweet. Then we rode right on through the dust And laughed at the terrible heat.

THE TUG OF WAR

There are, in New York State, according to Mrs. Charles H. Sabin, 60,000 members of the Women's Organization for Prohibition Reform, which has been in existence one year; there are only about 50,000 members of the W. C. T. U., which is sixty years old. As we remarked the other day, when Mrs. Mary Harris ARMOR of Georgia proclaimed that one Dry woman could out-talk a dozen Wet newspapers—can one Dry woman out-talk a Wet woman with just as much conscience and vocabulary?

Comfort in Hosiery

WHEN your feet hurt so dreadfully it may not be the fault of your shoes at all. How about your stockings? Make sure they fit your feet easily if you want foot comfort. If they are too large they will form tiny folds that will cause pain to the foot and a tight stocking can make life very uncomfortable to the wearer.

Perhaps you are one of the persons who cannot wear silk stockings. Then why wear them? Foot comfort, not fashion, should be considered in the selection of the stocking and if a flannel thread or a light cotton gives you greater comfort by all means wear these.

The flannel stockings are cool and these, as well as the cottons, are quite popular for summer sports wear. So there will be no difficulty in making selections.

Honorable Mention for the Cloth Dress

By Ann Roberts

Copyright Press Publishing Company (New York World) 1930

ALL joking aside, the cloth dress takes on a new importance for the coming fall. It's not just a cloth dress of the new collections, but it's the cloth dress—a high fashion—something that stands out as important. It is a subject upon which I feel it coming over me—I am going to wax very serious.

Of course, there will be sharp cries from those who have a little idea that wool is itchy to their skins. But this is one time where an inhibition of that sort will just have to be suppressed with all the power that is in you.

Wool dresses are in and there they will stay for a season at least, even if the whole country goes itchy. They're a new variety of dress with a flair all their own and must—yes, they must—be described if you are to know the really smart ones when you meet them shortly on your shopping rounds.

One class is that of the knitted tweeds. They are extremely smart. Of the softest texture, they are dresses to delight the hearts of those who love fineness of fabric. Some of them in mixtures are combinations of white, green and red or white, black and green. Then the scarf—there is more than apt to be a scarf made as a part of the dress—is striped across its ends with bands of heat either the red or the green.

Soft Lacey Tweeds
THERE are soft, lacey wool tweeds—these made on tailored lines often with one color and a contrasting one used to make the design—a triangle of green in front and over the waistline set into a dark brown dress.

The wine and tan mixed tweeds are excellent.

A dark brown dress with a brilliant

green coat is a good combination. Let the dress show below the coat. A dress worn with a grey jacket lined with a pine green dress, a yellow green matching coat. If blue, then the only things you look dress with this a black coat, let where it will tell

times wear berets or the materials that or the coats. Buy have it made up understands the in-beret and how to ming to your face a twist there.

design as a whole, not just tacked on for trimming with no particular tale to tell.

Belts are patent leather and suede anywhere from one-half inch in width to four inches—in suede they wrap around and crush. In dull colors they are best and brilliantly smart when the figure can stand the line.

A new trimming is velvet corduroy so cleverly woven that it looks almost like suede. For collars and cuffs it is most effective—for instance a brown dress of jersey with cream colored collar and cuffs of this new material.

They are making jackets of this fabric too—little, short, good looking things that are or should be a part of the dress.

Black is good in the more expensive Jerseys with collars and cuffs of white. These dresses you will sometimes find done with fagoting on their seams, so that the intricacy of their making lifts them entirely out of the sport class. They become really highly developed daytime dresses of the type liked best for morning wear by college girls and professional women.

More About Colors

NATURAL color is smart—trimmed with stripes on the scarf or some other touch of brilliant color—red, intense blue, bright green, &c. These dresses worn with the new three-quarter lapin coats are very good style, but are not recommended for any one who has not a large and elegant wardrobe.

Berets are the hats to be worn with these new daytime dresses almost without exception—not velvet but of some tweedy material either to match the dress or to match the bright color of the tweed or jersey that is used as a part of the dress.

Treating a Common Summer Trouble

MAY we suggest to harassed hostesses who do not relish playing nurse, and vacationists about to go off into the woodlands, that the following article be clipped and kept in a safe place for emergencies.

It's about Ivy poisoning. We feel duty-bound to talk about it once a year for the sake of those who forget the advice given last year, as well as for the rising generation.

Preventive measures are of first importance, of course. And the best preventive measure we know of is to avoid the plant.

With the appearance of the poison plant and the good sense not to go near it. Year after year city folk shun the harmless Virginia creeper or (candle the dangerous ivy, because they cannot distinguish the difference between the two. That is, until after the trouble begins.

Hearken! Poison ivy is a clustered shiny three-leaved vine. Virginia creeper has a close resemblance to the poison ivy except that the creeper is a five-leaved vine. And with that all important fact tucked under your hat, we trust you won't ever have need of the following advice:

At the first signs of poisoning—the burning and itching—wash the disturbed skin with a bland soap and pure water; then sponge with alcohol (grain alcohol); then dust over with a mild absorbent powder. Next, see a physician as soon as possible. Do not procrastinate until blisters form, for that is when the poison begins to spread.

However, if blisters do form, mop them with a mixture of equal parts cool water and witch hazel and finish with a dusting of talcum or medicated powder or just plain baking soda.

Ivy poison cases are usually confined to a cool, dark room, put into loose light clothing and fed on a light diet made up of milk, vegetables and cooling drinks, unsweetened lemonade, for example, orange juice and other non-acid fruit beverages, but no tea and no coffee.

We know a gentleman who has suffered so severely from ivy poisoning in the course of his young life that he has a terror of country life. This lad spends his vacations at sea or visiting distant cities. We shouldn't like to see any of our readers develop a phobia like his—It's too expensive. Moreover, the country is such a sweet place and spiritually all of us have need of its calming, beautiful influence. Don't let the three-leaved vine scare you away. Just you keep away from the three-leaved vine.

THINK IT OVER

By Alfalfa Smith

IDEAS bring success. Thoughts unfold like a motion picture.

If you can see the beginning, you certainly can see the ending. Know where you are going.

Half, yes, more, of the failures in this life are caused by people not taking hold of good ideas when they get them. If you get a good idea and cannot carry it out yourself, hire some one to do it.

Remember that Carnegie said he got wealthy by hiring people who knew more than he.

This is a mighty good time to start something, for if you can make a go of it now, you certainly can make a huge success of it later when times get better.

When You Travel

IT is quite all right for a woman traveling alone to converse about the scenery or on general topics with a courteous man she may meet on a long trip, but it would not be proper to accept an invitation from him to a meal in the diner. If they should, accidentally or intentionally, be seated at the same table, and they may converse, she should pay for her own meal.

A chance travel companion might extend his courtesy to assisting the woman with her baggage at their destination, and if there is no one to meet her at the station he may offer to assist her to a taxi or other conveyance, but that should end the chance travel acquaintanceship.

Vacation Hints

For bee stings apply weak ammonia. If you have neglected to bring this, ask the farmer's wife for salt and soda and add sufficient water to make a paste and apply this.

If you are camping and forgot to bring a funnel you will find an envelope a good substitute for filling salt and pepper shakers. Cut off a small corner of the envelope and insert the open end into the shaker.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless Nujol. It won't cause distress or gas pains or griping."
Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

CHEVROLET SIX DEALER BUILDS SMALL CAR

Without question the happiest boy in the West is Bill Hooper, eight-year-old son of Harold Hooper, Chevrolet dealer at Ellensburg, Wash., who is the owner of the world's smallest "Chevrolet," a one-passenger car that will turn up 10 miles an hour, and deliver 120 miles on a gallon of gasoline, according to officials of Shumate & Connell, local dealers.

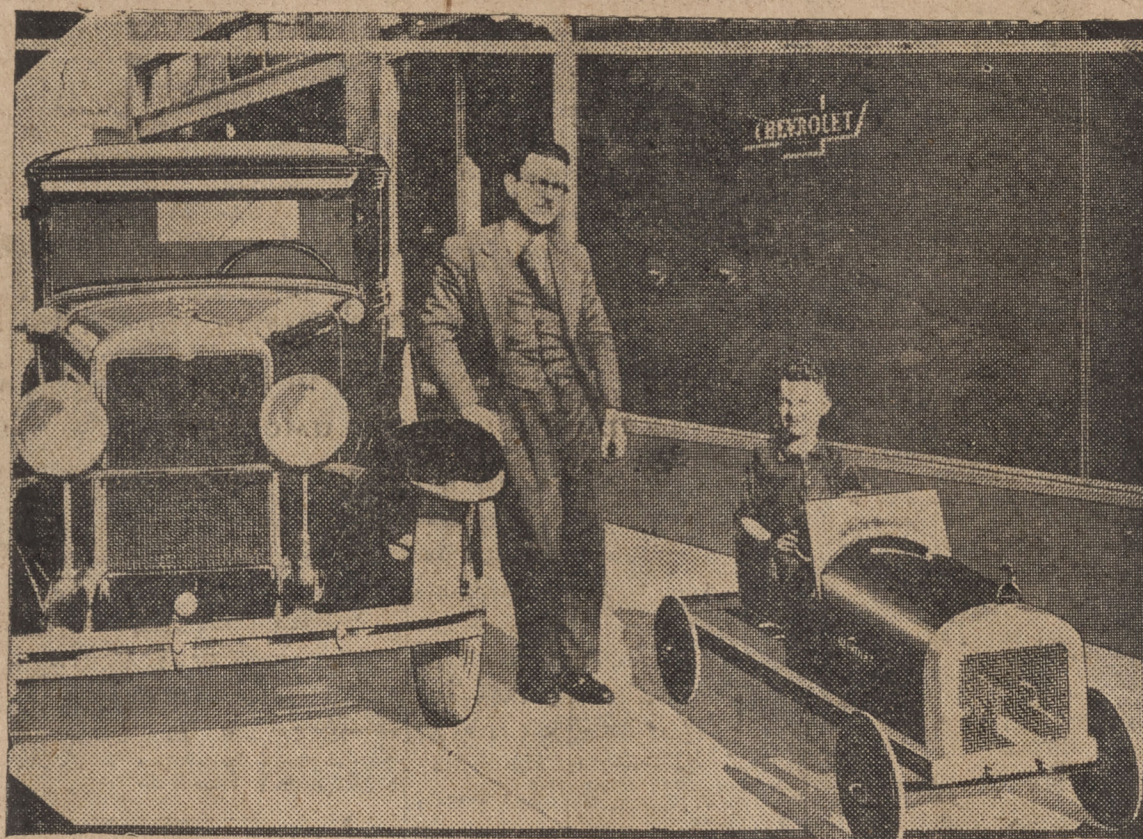

This little car carries the Chevrolet name plate (salvaged from an old radiator shell) and naturally it is his most prized possession. Here is how the elder Hooper, who built the car, describes it.

"The motor is a three-quarter horsepower washing machine engine. The frame was made from white pine. The springs are Chevrolet Six valve springs and carry the weight of the car and driver nicely. The pulleys were sawed from pine boards and nailed together. A loose belt connects the engine to the countershaft, where I obtained reduction of about three to one. An idler pulley tightens the loose belt which is the clutch. It is very smooth and positive. A differential is mounted on the rear axle. The hood and seat were constructed from veneer and sheet iron."

Hooper says that he has had numerous requests for details of construction. Evidently Bill has been demonstrating his car among his playmates and has made "sales" as easily as his father does with the Chevrolet Six. "I believe that the dads in town wish I had never built the darn thing," says Hooper.

"I constructed the little car in order to interest Bill in the Chevrolet business," Hooper points out. "I do not believe he is too young to start now. When he is of age he will have a wider experience than most men much older."

Most any day Bill may be seen scampering along the sidewalks of Ellensburg in his "Chevrolet." He is very mechanically inclined and takes great pleasure in explaining his car to spectators, of whom there are always hundreds. He understands its operation perfectly and some day will step into his father's business with all the requisites of an excellent Chevrolet dealer. Incidentally his father is now regarded as one of the best dealers in the State and is to be congratulated for giving his boy so excellent a

BILL HOOPER, right, eight-year-old son of Harold Hooper, Chevrolet dealer at Ellensburg, Wash., is at the wheel of his "Chevrolet," built by his father. At the left is the real Chevrolet Six. Young Bill's car will deliver 120 miles to the gallon.

French Plan To Construct Two New Cruisers

PARIS, Aug. 2.—The French naval committee will shortly consider the building change proposed by M. Dumesnil, French Minister of Marine, who intends to build two cruisers of 5400 tons each instead of the six destroyers mentioned in the bill voted by parliament.

It appears the two French ships are an answer to the Italian cruisers of which six have already been laid down or ordered. They are of 5000 tons and 37 knots speed with an armament of eight 6 inch guns. Up to the present time France and Italy have each built seven 10,000 ton cruisers, but indications are that neither country will lay down any further ships of this class.

School days are over for the summer. Little Bill has his car all ready. Is there a happier boy anywhere in these parts? Try and find one.

Pair Ends 1000 Mile Pleasure Hop

STOCKTON, Aug. 2.—L. C. Wilson, formerly of Stockton, accompanied by Paul Ritter of Oakland landed at the Stockton airport today after covering a pleasure flight of 1000 miles since July 4. Wilson received his instruction at the Stockton airport and stopped here enroute to his present home in Berkeley.

Northern Pacific Faces Huge Suit

SPOKANE, Aug. 2.—Suit filed against the Northern Pacific railroad which is expected to involve at least \$10,000,000 was today filed by the Federal Government. The rights on lands which the Government gave the railroad years ago is cause for the suit. There has been a reclassification of lands since then.

A Small Boy's Dream

CAPONE MAY BE LINKED WITH SLAYING

(Continued From Page 1)
last night on the dance floor of a Delafield, Wis., resort, 25 miles west of Milwaukee. He was known there as "J. H. Goodman of Aurora, Ill." a free spender of big bills, but quiet.

Was Slain
"Goodman" or Zuta, having called a Mrs. Nelson in Chicago by telephone, strove into the dance pavilion of the lakeside hotel at Delafield and over to the tin pan player piano that ground out mechanical music for a half dozen or so dancing couples.
He dropped a dime into the slot. In a moment the strains of the jazz tune "Good For You, Bad for Me," sent the dancers circulating again. Witnesses differed about what happened in the next few moments after eight men entered the dance hall in single file. Richard Rutzen owner of the hall, said Zuta was leaning against the piano. C. A. Schmidt, Wauwautos, Wis., said he was dancing.

Was Cornered
The eight advanced toward Zuta forced him into a corner. At the same time they brought a sub-machine gun, two sawed off shotguns and an automatic, the three weapons gangsters use to settle their differences.

One gangster seized a small boy who stood near Zuta and pulled him away.

"Here he is," another remarked. That was the signal to begin firing. Before he could speak, Zuta fell face down, literally riddled by machine gun bullets and shotgun slugs.

Fired Volley
The roar drowned out the ironic jazz tune. The dancers cowered. Bathers from the beach outside ran to the building and then stole away at the sight of the murder.

On Honeymoon

MISS MAYSIE GASQUE, wealthy American heiress and John Roland Robinson, a young Blackpool barrister, flew from London to Paris on their honeymoon.

"That's that," the same gangster said. His companions fired a volley into the ceiling. They strolled out and escaped in two automobiles, bearing Illinois licenses which were traced to a Chicago taxicab. The owners said the tags had been stolen.

Jack Zuta, listed first in the 28 "public enemies of Chicago" had come to the end of a gangsters' trail, although it was hours before he was identified. Bertillon measurements and a description were phoned to Delafield by Chicago police and the identification made positive.

Capone Back
While the drama was being enacted in Wisconsin, Capone and 100 of his friends were staging a home coming party in Hotel Western in Cicero, his old headquarters. Capone returned from Florida to the scene of his rack-teering triumphs, unexpectedly, supposedly by airplane. Both the climate and authorities in Miami had become "too hot" for the gang chief.

Crockett Woman Called By Death

Funeral services will be held tomorrow afternoon for Mrs. Anna Grant Thomas, 80 year old Crockett resident who died at her home, 715 Winslow street, Crockett, yesterday morning.

The services will be held from Wilson and Kratzer's at two o'clock and cremation will follow at Berkeley crematory.

The deceased was a pioneer resident of California, coming to this state 60 years ago. She spent 47 years in Crockett. She was a native of Canada.

GOVERNMENT OF CHINA SCORED

WASHINGTON, Aug. 2.—UP—The nationalist government is harassed on all sides and suffering from defections within its ranks. This was made plain today as dispatches reaching the state department indicated the main body of bandit or so-called "communists" troops was marching northward from Changsha toward Luyang. Still farther to the northeast lie the important industrial cities of Wuchang and Hankow. In them are between 250 and 300 Americans who may be forced to evacuate as were their countrymen at Changsha.

Late dispatches indicated one detachment of the bandit troops was about 20 miles east of Changsha while another moved north. Even yet, however, the city is reported unsafe, though the fire which raged through it yesterday has been nearly extinguished. Reports said a Chinese gunboat shelled Changsha yesterday and again this morning.

Another cable message from American consul Richard P. Butrick at Hankow said the Rev. William H. Lingle of Salisbury, N. C. once reported in the hands of bandits, is safe and has proceeded to Kuling to meet his wife.

It is quite evident to officials here that the nationalist government is hard pressed.

At the same time officials who are well informed about Chinese conditions greatly doubt that the northern forces, who claim, like the southern nationalists, to represent the true ideals of their party's founder, Dr. Sun Yet Sen, will overcome the government at Nanking. A stalemate seemed more probable.

State department officials were reluctant to predict what course the United States might follow should the nationalist government prove incapable of protecting the larger American interests at the treaty parley. In 1927 a force of 1,200 marines was dispatched there. It was learned, however, that at the present time no plans are on foot to send additional forces to China.

When General Smedley D. Butler returned from China two years ago, he gave his opinion that the nationalists would stand, although beset by many difficulties. There are many other officials here who agree with him.

Leopold Plans To Sue Family

VIENNA, Aug. 2.—Published in a local monarchist newspaper, a letter intimated today, that former Archduke Leopold, now accused of grand larceny in New York in connection with the sale of the famous Napoleon necklace, owned by the former Archduke's Maria Theresa, is planning to sue the royal family for damages.

According to the letter a claim for \$60,000 is made for the alleged wrongful imprisonment of Leopold.
